OBJECTIVE

To adopt the resolution requesting the Orange County Transportation Authority (OCTA) to disburse the project construction funds to the City of Garden Grove for the addition of a northbound right turn lane to Euclid Street at SR 22 eastbound on-ramp.

BACKGROUND

In fiscal year 2007/08, the City of Garden Grove secured a grant funding for construction of subject project from OCTA through the Combined Transportation Funding Program (CTFP) via Intersection Improvement Program (IIP). In order to construct the improvements, the City has acquired right-of-way from the Shell gas station and the Public Storage properties south of the SR-22 freeway.

DISCUSSION

The project will add a 14-foot wide right turn lane to Euclid Street at SR 22 eastbound on-ramp. The work comprises the removal and relocation of existing curb, gutter, sidewalk, driveways, cross gutter, access ramp, traffic signal pull boxes, and utilities, and will also involve asphalt paving, median island modifications, traffic signal modifications, traffic control, striping and signing. The project will significantly decrease traffic congestion and improve traffic circulation on northbound Euclid Street.

The City will need to adopt the attached resolution for disbursement of 90% of eligible construction costs to the City of Garden Grove. The remaining 10% will be transferred to the City when construction is completed.
