To mitigate these impacts, the Harbor Boulevard Environmental Enhancement Project, from Woodbury Road to Flagstone Avenue, proposes to plant new trees, replace the existing landscape on the median islands with drought-tolerant plants and install a sub-surface drip irrigation system. Staff is requesting funds in the total amount of \$350,000 to cover landscaping costs, which will include irrigation system installation, and planting materials. If the application is approved and awarded, construction work will be scheduled according to the grant agreement requirements.

FINANCIAL IMPACT

There will be no impact to the General Fund. Local Measure M matching funds will be used for the Harbor Boulevard Environmental Enhancement Project.
